## TIGER

Two Western models meet and fall in love in Tokyo, but when their stay extends the relationship disintegrates.

## OUR WWII FATHERS

A story of two related fathers, Holly Easter and Frederick Drew from different races honored in Washington DC for service during WWII. Both served in Pacific. The story is wrapped around interviews with the fathers and the trip to Washington. The documentary covers winning the war, racism, and is supported by music from Josh White and Woody Guthrie. A historical reflection of how the country and military changed in race relations to present day. Excellent historical perspective that impacts race relations in America today.
